# NEW PRODUCT ADVICE

## DESCRIPTION:

Old Man Emu Suspension

## APPLICATION:

Toyota 200 Series V8 Petrol & Diesel,  
GXL & VX

## PART NO:

Please Contact Us

## AVAILABILITY:

Now

## FEATURES:

- Integrated Old Man Emu suspension packages for the LandCruiser 200 Series are now available, providing improved vehicle ride, handling and load carrying capabilities over all surfaces
- Months of field development work by our specialised OME engineering team has resulted in a wide range of suspension options
- During development, engineers focused on improving the vehicle's load carrying ability and also attained ride height increases
- An extensive range of front and rear coils has been developed, with varying ride heights and coil rate options allowing owners to tailor the system to their needs
- Valving work was undertaken to develop Nitrocharger shock absorbers that correctly matched the higher OME spring rates
- A GVM upgrade is also available on new, unregistered vehicles with original equipment rims and tyres (or equivalent rated replacements)
- The approved 3580kg GVM upgrade must consist of specified front and rear suspension components and be fitted by an OME licensed fitter
