

ARB REMOTE FRIDGE MONITOR

ARB Corporation Ltd, a world leader in aftermarket 4x4 accessories, is pleased to announce the latest addition to their growing camping and touring range. After years of extensive research and design, the ARB Remote Fridge Monitor is set to be the next favourite camping accessory for every 4WD adventure.

There's nothing worse than arriving at your campsite after a hard day's 4wding, only to discover the drinks you put in your fridge freezer are warm. It's every camper's worst nightmare. Fear this no more with the release of the ARB Remote Fridge Monitor. This monitor allows you to keep track of the temperature of your ARB Fridge Freezer from the comfort of the drivers seat.

Utilising clever wireless transmitting technology, the ARB remote fridge monitor displays operating conditions such as internal fridge temperature, supply voltage and compressor status of your ARB Fridge Freezer on a conveniently located backlit display for the driver to monitor whilst in transit.

Like all of ARB's innovative products, this monitor was developed by 4WDers, for 4WDers. The monitor contains advanced wireless transmission technology, providing 30m (100ft) line of sight or 15m (50ft) of interrupted transmission range. This ensures that wherever your off road journey takes you to, you can still keep an eye on the temperature of your fridge freezer and you won't encounter any unpleasant surprises.

If you're like most of our customers who carry two ARB Fridge Freezers (with the hope of one of them being filled with the catch of the day), the ARB fridge monitor can display up to two fridges with the addition of a second transmitter. Another innovative feature is the ability to change the transmission frequency so that you do not inadvertently monitor another fridge in your convoy.

Once you're setup at camp, simply remove your ARB Remote Fridge Monitor from its quick release holder,

plug in the power supply via your portable power pack, and sit back and monitor your fridge from the comfort of your camp chair, tent or caravan.

High resolution images are available within the accompanying folder.
