

ARB Frontier Long Range Fuel Tank

ARB Corporation Ltd, a world leader in aftermarket 4x4 accessories, is pleased to release its premium fuel tank and latest 4x4 accessory, the ARB Frontier fuel tank. Superior in design, the ARB Frontier fuel tank is engineered with durable materials to ensure the secure and effective transport of diesel fuel for extended travel.

The ARB Frontier fuel tank is roto-moulded in Australia from a specially formulated cross-linked polymer, ensuring the tank is designed and engineered with strength and durability in mind. The specially formulated polymer is impact resistant, flexible and UV resistant. Without compromising on strength, the polymer also provides a weight saving of 30 to 50 per cent over an equivalent steel tank. This makes the ARB Frontier fuel tank easier to maneuver for fast installation.

The roto-moulding process extends the fuel tank capacity by following the vehicle underbody contours and the one piece construction eliminates seams or welds in the body of the tank. With a wall thickness of 7-9mm, the additional fuel needed for extended outback travel is sure to be safeguarded from off road elements.

As a replacement to the original vehicle fuel tank, the ARB Frontier long range fuel tank utilises quality hardware and fittings. The mounting straps attach directly to the existing vehicle mounts and an ARB manufactured pump plate accommodates the existing fuel module.

All ARB Frontier tanks are pressure tested for conformance to our exacting standards and are fully supported with a nationwide 3 year manufacturer's warranty.

The ARB Frontier long range fuel tank, a perfect partner to explore a new frontier.

Key Features:

- Impact resistant, flexible and UV resistant

- 7-9mm wall thickness
- Vehicle specific designs
- Lightweight tank lessens the impact on GVM
- Compatible with diesel fuel
- Easy to install

About ARB

Founded in 1975 in Melbourne, ARB 4x4 Accessories is now Australia's largest manufacturer and distributor of aftermarket 4WD accessories. With products including bull bars, protection equipment, Old Man Emu suspension, Air Lockers, roof racks, canopies and recovery equipment, our primary mission is to prepare vehicles for the remote and harsh conditions typically encountered off road. ARB currently has more than 50 stores and over 100 stockists located across Australia, as well as offices in the United States, Thailand and Europe, and an export network reaching more than a hundred countries around the world.
