

ARB'S GOT YOU COVERED THIS WINTER

The big freeze is upon us, but that doesn't mean you need to hibernate for the next three months. You can still venture out, passed the heated walls of your home, and do what you love this winter, if you have the right gear. ARB has a range of accessories manufactured from the highest quality materials, designed for maximum warmth during any off road adventure in the winter months.

A. ARB SLEEPING BAG

We all know it, when you're ill prepared for those freezing winter nights, camping can be a very miserable experience. Not having a decent sleeping bag could give you one of the longest nights of your life – shivering until the sun eventually hits your campsite to melt your surrounds, and then finally you.

The ARB sleeping bag was designed with warmth, comfort and durability in mind. To ensure its comfort rating of -5°C, the sleeping bag is filled with 350gsm invistaDupont Thermolite® Quallo 7 hole fill. Holding all of this together is a 100% cotton brushed flannelette inner lining, treated with Sanitized® anti-bacterial treatment for maximum hygiene protection. The nylon outer shell not only displays a sleek black and stone design with ARB topographic print, but also has fire-retardant treatment to CPAI-75 standards for added protection. The sleeping bag is machine washable, which does not interfere with the antibacterial and fire-retardant treatments in place. Made with genuine YKK® zippers, a single continuous main zipper with added Velcro closure ensures you keep snugly-warm and draught-free during the night.

Perfect for 4WDer's of all shapes and sizes, the sleeping bag boasts the luxurious size of a king single (200cm x 100cm) a perfect size for those frosty winter nights, offering plenty of room to move and snuggle in. Those unpredictable winter nights seem to seep through even the best tent set up, which is why the sleeping bag is designed to retain its ability to insulate when damp or wet.

If you've got a partner who simply will not purchase a sleeping bag unless they join, then this is the sleeping bag for you. The unique design of the ARB sleeping bag makes joining two to make a double, simple and easy.

There's no need for a left and right hand model as fully unzipping two bags and laying one on top of the other means that the joining zipper runs around the outer edge, not up the middle between the occupants. When the second sleeping bag is placed on top, the hood/pillow can be easily removed from the top bag and zipped to the bottom bag to complete your tailor-made sleeping setup.

Providing ultimate head support and comfort, the semi-circular hooded section includes a pocket to insert a standard sized pillow and can also be removed for convenience. Designed for maximum security, two handy stash pockets are provided to keep your valuable items close and safe but also so they don't get lost in the bottom of your bedding.

The sleeping bag comes with a generously-sized rectangular stuff sack which allows room for the sleeping bag to be folded before being placed in the sack. When fully packed, the entire shebang takes the shape of a rectangle, so it can be easily stored between the fridge and the fishing tackle box, ready for your next adventure, no matter the weather.

B. ARB EDGE BEANIE

Stylish and warm, the ARB Edge beanie will keep your head toasty, whether you are out on the tracks or at the pub with friends. Made from a premium wool and polyester blend with a Thinsulate™ lined interior, this beanie will be a welcome addition to your winter wardrobe.

B.

A. ARB ALPINE FLEECE

The Alpine fleece is perfect for off road travel regardless of whether you're traversing the Blue Rag Range Track or exploring the Snowy Mountains. The fleece features a blue marle polyester knit and is designed to keep you warm on those frosty days on the track. A convenient softshell pocket with YKK zip is featured on the chest, while dual lower pockets are positioned on either side of the fleece.

B. ARB OVERLAND HOODIE

Perfect for cold nights around the campfire, or a night on the town, these new Overland Hoodies are ideal for any outdoor adventure. Gunmetal grey brushed fleece with a subtle black ARB logo across the chest, these stylish jumpers include bonded mesh panels and the signature 'ARB red' hood lining. With YKK zips and rubber moulded logo zip pulls (zip-up jacket version only) these threads will complement just about anything in your wardrobe.

C. ARB BLUE STEEL JACKET

The ARB Blue Steel jacket will be your best friend during the coldest and wettest conditions. Made from a Cordura 500D nylon oxford with TPU membrane, this jacket has a waterproof rating of 10,000mm and breathability of 5000MVP. The inside of the jacket has a nylon taffeta coated lining for extra warmth and durability and each of the zips are YKK. All of the seams and stitches are taped to avoid water seeping in on those dreary days, perfect if you're caught in the rain while out fishing or hiking and want to keep those valuables in your pocket dry.

D. REDLINE JACKET

ARB's Redline jacket is ideal for all sorts of outdoor adventures in cooler climates. The jacket has a polyester knit charcoal marle outer and bonded micro-fleece interior ensuring you'll be kept warm. Convenient chest and twin lower pockets will keep your valuables safe for when you're out and about, incorporating YKK zips.

G. OUTBACK SURVIVAL KIT - 'SOCKS IN A CAN'

Dealing with cold, water-soaked socks while camping in the middle of winter is a recipe of an unhappy outdoor experience. ARB knows this first hand which is how the Outback Survival Kit was created. The Outback Survival Kit consists of a tin can with a pair of woolen socks inside, the tin can acting as a protective shield for these little woolen beauties. Made from Australian Merino wool, which is known for its warmth in extreme temperatures and maximum breathability. This 'Socks in a Can' idea ensures whatever situation you find yourself in, you will always have a spare pair of warm, dry socks to the rescue.

H.

H. ARB TOASTY BRANDER

The ARB Toastie Brander is not for the faint-hearted and if you're a true ARB fan, it'll be your best friend around the campfire this winter. Designed to make your favourite toasted sandwiches, the toasty brander actually brands the ARB logo onto both sides of the sandwich. The ARB Toasty Brander consists of two cast iron plates, which are placed over the coals of an open fire or portable burner, with the handles formed from Manchurian Ash timber. This camping accessory makes a quick, warm meal, leaving your tummy and temperature at ease this winter.
